

CPS SERIES COMPLETE PALLETIZING STATION

The modular palletizer cell for all stacking tasks

Modular

Supports multiple configurations of columns and robot arms to cover different pallet sizes and stack heights

Safety

Compliance with ISO 10218, ISO 13849, and ISO/TS 15066 standards. Supports optional safety scanners with reduced mode and safety stop

Flexible

Lightweight and compact structure with minimal footprint. Easy to move from one line to another one

Efficient and cost-effective

Handling pallets up to 1400mm × 1400mm width, with stacking heights up to 2.6m, for a wide range of scenarios. Palletizing speed up to 9 boxes per minute, equivalent to the workload of approximately 4 workers, with a payback period starting from 6 months

Fast deploy and redeploy

Initial setup in less than 1 hour. It can switch to a different palletizing task in less than 1 minute, and be redeployed into a new production line in less than 10 minutes

Maintenance-friendly

Modular design of key components, service-friendly design with standalone robot and system controller, minimizes maintenance costs and downtime

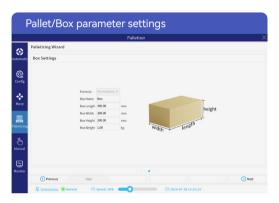

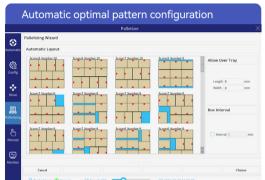

Palletizing software

Elite Robots' proprietary palletizing software offers seamless flexibility and swift installation, making the robot exceptionally user-friendly. This simplifies operations for your team while ensuring you receive the most efficient palletizing solution possible.

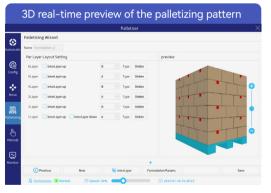

Safe operations

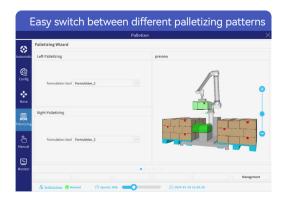

Real-time monitoring and 3D visualization of palletizing tasks

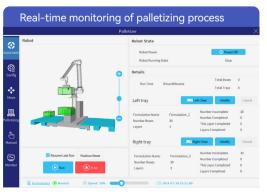

Automatic layout

Supports both automatic and manual configuration of palletizing pattern. External patterns can also be imported

Palletizing wizard

Intuitive and user-friendly interface for fast setup and no programming required.
Settings can also be imported from other palletizing softwares

System Specs

	CPF16-CS520H	CPF10-CS520H	CPL07-CS520H
Payload	20kg		
Radius	2000mm		
	Pallet A Pallet B Pallet B Pallet Size allowed 1200mm*1000mm	Pallet A	Pallet B Max Reach Max pallet size allowed 1400mm*1400mm
Max Stack Height	2350mm	1600mm	2300mm
Max Speed	9 pcs/min		
Communication	3 Ethernet, 1 RS485; TCP/IP, MODBUS TCP/RTU, EtherNet/IP, Profinet		
Operating Temperature	0-50℃		
Peak Power Consumption	2kW	2kW	3.5kW
Power Source	Single-phase 220VAC/110VAC, 50~60Hz		
Weight	≈430kg	≈410kg	≈430kg
Footprint	1400mm x 1700mm		

	CPF10-CS530H	CPL07-CS530H	
Payload	30kg		
Radius	15221	1522mm	
Pallet Specifications	Pallet A Pallet B Pallet B Pallet size allowed 1400mm*1400mm		
Max Stack Height	1600mm	2300mm	
Max Speed	9 pcs/min		
Communication	3 Ethernet, 1 RS485; TCP/IP, MODBI	3 Ethernet, 1 RS485; TCP/IP, MODBUS TCP/RTU, EtherNet/IP, Profinet	
Operating Temperature	0-50	0–50℃	
Peak Power Consumption	2kW	3.5kW	
Power Source	Single-phase 220VAC/110VAC, 50~60Hz		
Weight	≈410kg	≈430kg	
Footprint	1400mm x 1700mm		

	CPF10-CS620	CPL07-CS620	
Payload	20kg		
Radius	1800r	1800mm	
Pallet Specifications	Pallet A Pallet B Pallet B Max pallet size allowed 1200mm*1200mm		
Max Stack Height	1700mm	2400mm	
Max Speed	9 pcs	9 pcs/min	
Communication	3 Ethernet, 1 RS485; TCP/IP, MODBUS TCP/RTU, EtherNet/IP, Profinet		
Operating Temperature	0-50℃		
Peak Power Consumption	2kW	3.5kW	
Power Source	Single-phase 220VAC	Single-phase 220VAC/110VAC,50~60Hz	
Weight	≈410kg	≈430kg	
Footprint	1400mm x 1700mm		

	CPF10-CS625	CPL07-CS625	
Payload	25k	25kg	
Radius	1500r	1500mm	
Pallet Specifications	Pallet A		
Max Stack Height	1600mm	2300mm	
Max Speed	9 pcs/	9 pcs/min	
Communication	3 Ethernet, 1 RS485; TCP/IP, MODBU	3 Ethernet, 1 RS485; TCP/IP, MODBUS, TCP/RTU, EtherNet/IP, Profinet	
Operating Temperature	0-50	0-50°C	
Peak Power Consumption	2kW	3.5kW	
Power Source	Single-phase 220VAC	Single-phase 220VAC/110VAC, 50~60Hz	
Weight	≈410kg	≈430kg	
Footprint	1400mm	1400mm x 1700mm	

Track record across industries

Elite Robots offers a wide selection of robotic arms with payloads up to 25 kilograms and wide flexibility at the deployment level (single robotic arm integration and static and mobile all-in-one solutions with AGVs) for a wide variety of palletizing applications.

Over the years, its collaborative robots have been successfully used to perform palletizing tasks across a variety of industries: food and beverage, household products, e-commerce, chemical industry, and more.
